

26th May 2010

Dear Parents

Children in Year R are always interested in things which grow. As a way to enhance this, we are providing a small butternut squash plant for each child so that they can plant them at home, care for them and watch them grow. The plants have been provided by Ellie Bolton, a parent who runs the school's Green Team.

We will ask all the children to bring their butternut squash into school so that we can see who has grown the biggest one. The date for this will be set later, depending on how quickly the butternut squashes are growing!

If you are able to find a corner in your garden, or a growbag, for this project we would greatly value your support.

Happy gardening!

Yours sincerely

Rowley Bucknill
Deputy Headteacher
