

23rd April 2009

Dear Parents

BBC South Today has contacted the school and Darren Hammerton, the forester who maintains Captain Phillimore's Woods. They would like to film the woods being used by the children and some woodland crafts which Darren Hammerton is experienced with. This would make a special report for South Today about maintaining ancient woodland.

They would like to film Y3D in the woods on Tuesday, 28th April to be part of this report. Unfortunately we cannot guarantee that this will happen as poor weather or sudden newsworthy stories may mean filming is cancelled.

If you are not happy to have your child involved with the filming please contact the school.

Yours sincerely

Rowley Bucknill
Deputy Headteacher
