## Number Facts: Year 2

## Number and place value

Pupils should be taught to:

- count in steps of 2,3 , and 5 from 0 and in tens from any number, forward or backward

## Addition and subtraction

Pupils should be taught to
recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100

- recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems.

## Multiplication and division

Pupils should be taught to:

- Recall and use multiplication and division facts for the 2,5 and 10 multiplication tables

## Fractions

Pupils should be taught to.

- recognise, find, name and write fractions $/ 3, I_{4},{ }^{2} / 4$ and $/ 4$ or a length, shape, set of objects or quantity
- write simple fractions e.g. ${ }^{1} / 2$ of 6
$=3$ and recognise the equivalence of
${ }^{2} / 4$ and ${ }^{1} / 2$.

## Measurement

Pupils should be taught to:

- compare and sequence intervals of time.
- Know the number of minutes in an hour and the number of hours in a day

Number Facts: Number and place value

- Know the sequence of counting in multiples of 3 .

Number Facts: Measure

- $100 \mathrm{p}=£ 1 \quad 1 / 2$ of $£ 1=50 \mathrm{p}$
- $100 \mathrm{~cm}=1 \mathrm{~m}$
- Whole hour $=60$ minutes
- $1 / 2$ an hour $=30$ minutes
- $1 / 4$ of an hour $=15$ minutes
- $3 / 4$ of an hour $=45$ minutes
- There are 24 hours in a day
- Able to recite all the months in a year In the correct order..

## Number Facts: Addition and subtraction

- Secure all number facts in the year 1 curriculum.
- Focus on inverse operations.

## For example -

I know that $13+4=17$ therefore $17-4=13$ and $17-13=4$.

- Know number bonds to 100 using multiples of 10 using related number bond to 10 facts.

## Number facts: Multiplication and division

- Know the 2,5 and 10 times table and the related division facts.
- Be able to recognise odd and even numbers.

## For example -

If I know that $1+9=10$, then I also know that 10 $+90=100$.

## Number Facts: Fractions

- $\frac{1}{3}+\frac{1}{3}+\frac{1}{3}=1$ whole
- $1 / 4+1 / 4+1 / 4=3 / 4$
- 1 whole $-1 / 4=3 / 4$
- $\frac{2}{4}=1 / 2$
- Able to say $1 / 2$ of all even numbers to 20

## For example -

County Council

Images and mathematical models to support year 2 conceptual understanding underpinning the facts
