Maths Day 4

MORE PICTOGRAMS!

Now that you have practised your pictogram skills, draw a pictogram to show the favourite crisp flavours chosen by teachers at school. Use the tally chart below:

Crisp flavour	Number of teachers
Ready salted	
Cheese and onion	////
Salt and vinegar	////
Smoky bacon	////
Sweet Chilli	////

Use a key showing 1 picture = 2 teachers. What picture will you use?

Remember to give your pictogram a title, draw the key and present clearly and neatly. Use a ruler (or straight edge) to draw your lines.

**Now** write some statements about your pictogram. E.g., Favourite flavour? Least favourite flavour? How many more teachers like one flavour compared to another? How many teachers took part in the survey?

**Challenge:** draw a pictogram to represent the data you collected in your tally chart on Tuesday and write some new statements about your pictogram.
